**Safe Driving Reminder  
December 2019**

As we celebrate the holiday season with family and friends, it is important to FCA and Company Car Programs that our participants and family members stay safe during their travels. We would like to take this opportunity to remind participants of the dangers of impaired driving.

Did you know...

- Every day, 29 people in the United States die in motor vehicle crashes that involve an alcohol-impaired driver.<sup>1</sup> This is one death every 50 minutes.<sup>1</sup>
- The annual cost of alcohol-related crashes totals more than \$44 billion.<sup>2</sup>
- Drugs other than alcohol (legal and illegal) are involved in about 16% of motor vehicle crashes.<sup>3</sup>
- [Marijuana](#) use is increasing and 13% of nighttime, weekend drivers have marijuana in their system.<sup>4</sup>

We encourage the use of a rideshare service, such as Uber or Lyft, as a safe alternative transportation option or appointing a designated driver who is committed to not consuming alcohol or drugs. The Governors Highway Safety Association (GHSA) and Lyft have partnered with state highway safety offices in five states to support campaigns that deter impaired road use this holiday season.

As a reminder, the Company Car Program has strict rules and guidelines around drug or alcohol related driving incidents. Per the Company Car Program Terms and Conditions, participants are required to report any drug or alcohol related driving incident to Company Car Programs. For complete information on program rules and guidelines regarding drug or alcohol related incidents, please review the Terms and Conditions document found on the Company Car website at <https://www.chryslercocar.com/>.

If you have any Company Car program-related questions, please contact us by phone at 1-800-481-6736 or by email at [cocars@fcagroup.com](mailto:cocars@fcagroup.com).

We wish you and your family a safe and happy holiday season!
