The lease term for this program is 12 months (based on in-service date). The penalty for termination prior to the end of the lease, without ordering a replacement vehicle, is a minimum suspension of one year and payroll deductions may continue for the duration of the agreed upon lease period. If a participant has two lease vehicles, and turns in one vehicle, the status of the second vehicle remains unaffected. If the participant has only one vehicle in service and turns it in, eligibility for the second vehicle is also suspended.
