

COMPANY VEHICLE OPERATIONS

Dear Florida Participant,

This email is to address the toll process within Florida. In order to safeguard the corporation against unpaid tolls and penalties, there is an automated toll payment process for all of our corporate owned vehicles managed by Element using Toll Guard. To avoid having Toll Guard process your toll payment, please make sure your transponder accounts are set up correctly. There is a \$5 charge assessed for all tolls that are electronically processed by the Toll Guard system.

In order to properly set up your Florida Sunpass/Turnpike and Central Florida Expressway transponder accounts, the license plate on your Program vehicle(s) needs to be confirmed as the main plate with both Florida tolling agencies.

Please contact Element Customer Care and they will assist you with this process (have your current Florida toll account information available, along with your current VIN, license plate and FCA Element Account #18624).

Please note: if the process is not followed correctly and Toll Guard processes the toll payment, you will be charged the toll amount, any penalty and the \$5 processing fee per toll.
