

Dear Participant,

The holiday season is upon us! If you have travel plans that include renting a vehicle, it’s important to reference the rental vehicle policy to help ensure a smooth experience.

Stellantis partners with our preferred vehicle rental suppliers to obtain discounted leisure rates, which are available to all Stellantis employees and all participating retirees in the Program.

Please be advised this is a new process to obtain discounted leisure rental rates.

Discount codes will no longer be published on the Company Vehicle Operations website.

Once a discount code is obtained, please do not share or provide these discount numbers to others. Misuse of these numbers could cause everyone to lose the discounts.

Important – leisure rental rates do not include insurance. We recommend that you take the liability damage waiver (ldw) AND the collision damage waiver (cdw) that is offered through the supplier. The costs associated with a leisure rental and insurance are not reimbursable.
