

COMPANY VEHICLE OPERATIONS

Dear Participant,

With the summer season upon us, many of us may be planning a road trip for a weekend getaway or summer vacation and that may mean renting a vehicle for the trip. We would like to remind our participants of the rental vehicle policy to help ensure a smooth rental experience.

The below points highlight the rental vehicle policy for leisure rentals and loaner rentals (for program vehicles that are out of service for three or more days).

Important – there are some recent changes to the policy for leisure rentals.

Leisure Rentals:

Stellantis has worked with our preferred car rental suppliers to obtain discounted leisure rates available for all employees and retirees. Please use the discount codes below on the supplier's website, or when calling the supplier to obtain the Stellantis discounted leisure rates.

Important - leisure car rental rates do not include insurance. We recommend that you take the liability damage waiver (ldw) AND the collision damage waiver (cdw) offered through the supplier. The costs associated with a leisure rental and insurance are not reimbursable.

- Please do not share or provide these discount numbers and/or link to others. Misuse of these numbers/links could cause everyone to lose the discounts. **Discounts are only for active Stellantis employees and for retirees who are participants in the Company Vehicle Program.**

Avis – Stellantis discount code: A4700090

National/Enterprise - <https://elink.enterprise.com/en/21/05/fca-leisure.html>

Hertz – Stellantis discount code: 661261

Loaner Rentals:

- Loaner rentals (when your program vehicle is out of service for three or more days):
 - If you reside within SE MI, contact the Lapeer Road Marshaling Center for your loaner at 833-550-5783.

- If you reside outside SE MI, your loaner must be booked using Business Travel's designated travel provider (669-272-1325) to ensure insurance coverage.
- Insurance is included in the Stellantis contracted rate when renting a vehicle through Business Travel's designated travel provider for loaner rentals. Be sure to state you are a participant of the Company Vehicle Program when calling.
- Insurance for a loaner rental does not need to be purchased, as long as the vehicle is rented through Business Travel's designated travel provider.

Note: currently, the only approved Stellantis supplier through Business Travel is Avis/Budget. In the event that Avis/Budget is not available, the participant should rent through National/Enterprise or Hertz as detailed in the Leisure Rental policy above, using the applicable discount code:

National/Enterprise - <https://elink.enterprise.com/en/21/05/fca-leisure.html>

Hertz – Stellantis discount code: 661261

When renting a loaner vehicle through National/Enterprise or Hertz, participants should purchase the liability damage waiver (ldw) and collision damage waiver (cdw) offered by the rental supplier. Reimbursement for insurance is available for loaner rentals when Avis/Budget is not available. Reimbursement for insurance does not apply to leisure rentals.

- Any vehicle NOT rented through Business Travel's designated travel provider does not include insurance unless the participant purchases coverage, at their own expense, at the time of the rental. Insurance purchased by the participant is not associated with Stellantis insurance coverages in any way and is not reimbursable.

Please see the Rental Vehicles page under the Insurance tab on our website: <https://www.chryslercocar.com/>.

Please contact Stellantis Business Travel with any questions or if you have any issues with renting at businesstravel@stellantis.com.

Thank you and we wish you safe travels!
