

Expanded License & Titling Procedures for all Corporate Vehicles

Dear Custodian,

As was previously announced, beginning February 1st 2017, the Company Car Program Group, via the Lapeer Road Marshaling Center, now handles all licensing, titling and tab renewals for all corporate vehicles in the United States. For those in Michigan, the process remains the same.

During this past year, the Company Car Program Group has been working directly with each state's Department of Motor Vehicles (DMV) and our FCA US LLC dealerships to set up the new process. This new process has prevented the need for individual custodians to pay out of pocket and request reimbursement.

As implementation continues in each state, please forward any renewal notices you receive to plating@fcagroup.com or mail to FCA LLC, 4300 S. Lapeer Road, Orion Township, MI 48359 for processing. As a reminder, please make sure your email address and phone numbers are current with Benefit Connect. You can reach Benefit Connect at (888) 409-3300.

If you have any questions or concerns regarding the new process, please contact us at plating@fcagroup.com or by phone at (248) 754-1001.

Thank you,

Company Car Program Group, Lapeer Road Marshaling Center
