

COMPANY VEHICLE OPERATIONS

Dear Participant,

We have some great news about our tire policy!

Effective immediately, you may take your company owned vehicle to any Stellantis franchised dealership for tire repairs and/or tire replacement. No need to find a participating dealership in your area as now all dealerships can service your vehicle's tire needs!

Complete information can be found [here](#). You may print this document and take it with you to your dealership if you wish. Dealerships also have direct access to these instructions via DealerConnect under topic: Mopar Field Operations.

As a reminder, there are some guidelines for tire repairs and replacements. Please review the details on our [website](#) under Maintenance, Modifications & Roadside > Tires.

If you have any questions, please contact Company Vehicle Operations via email at cocars@stellantis.com or by phone at (800) 481-6736.

Thank you,

Company Vehicle Operations
